A Step Back In Time

History of Route 66

Route 66 became historically and economically significant as the nation's first all-weather highway linking Chicago to Los Angeles.

If there's a road that is on most people's bucket list to drive, it's Route 66. As one of the most famous highways in the world, Route 66 is neither the fastest, oldest nor the longest road. However, more than any other road in the country, Route 66 became historically and economically significant as the nation's first all-weather highway linking Chicago to Los Angeles. As the gateway to the West, Route 66 symbolized a pathway to freedom and adventure, capturing America's imagination. John Steinbeck's classic 1939 novel, *The Grapes of Wrath*, told of the hardship on what he called the Mother Road, bringing national attention to the road. In 1946, Nat King Cole released Bobby Troup's song encouraging America to "(Get Your Kicks On) Route 66" and the CBS television series *Route 66* brought the highway to life in many living rooms across America. These pop culture tributes would forever cement Route 66 in America's consciousness.

The beginnings of Route 66 stem back to the early 1900's, when car production and ownership in the US was rapidly increasing, and the country's mixture of dirt and paved roads were no longer meeting the demands of an America on the move. The federal government recognized this need and began to play a bigger role in road construction, culminating in the Federal Highway Act of 1921, which gave a multi-year plan of federal funding to form the National Highway System. Route 66 would emerge as one of these roads.

Route 66 was officially commissioned on November 11, 1926, and it would chart a diagonal course through the heart of America, uniting existing rural roads into one single numbered route, linking hundreds of rural communities in eight states: Illinois, Missouri, Kansas, Oklahoma, Texas, Arizona, New Mexico and California. Illinois already had an existing road network at the time, a result of the railroad line linking Chicago to St. Louis. That rail corridor is linked to the early work of Abraham Lincoln, one of the attorneys for the railroad in Illinois. Lincoln went

*Illinois is the only
Route 66 state that also
intersects with Abraham
Lincoln's history.*

on to implement a national railway system as President of the United States (Illinois is the only Route 66 state that also intersects with Abraham Lincoln's history).

Illinois literally paved the way for Route 66, which took over the pre-existing State Bond Issue Route 4 (SBI 4), an already well-traveled and concrete-slab two-lane road from Chicago to St. Louis. Because of this, Illinois could boast, from the very start, that its stretch of the Mother Road was mud free and "slab all the way." Illinois was also the only state for which the road traveled north to south and the only state on Route 66 that was east of the Mississippi River.

Route 66 became especially important, bringing life to small towns as it weaved its way from the shores of Lake Michigan in Chicago to the Pacific Ocean in Santa Monica. Gas stations, truck stops, diners, tourist courts and then motels and other businesses sprang up to accommodate the traveling public. As America grew, so did demand for better, faster roads. As a result, new alignments of Route 66 were made. In Illinois, there were three major alignments: the original 1926-1930 alignment took the traveler through the heart of each of the communities along the road. The 1930-1940 alignment was re-routed in some cases to bypass larger, more congested communities. The 1940-1977 alignment was expanded into one of the earliest four-lane

highways in order to accommodate the transportation needs of the military during World War II.

During the early years of Route 66, the road served a myriad of different peoples, most notably the migrants moving west in search of work during the Great Depression. When America became involved in WWII, Route 66 played a vital role in transporting supplies, troops, and job hunters looking to secure employment in defense plants on the west coast. After WWII, returning soldiers started taking family vacations, many of whom utilized Route 66 to travel west to sunny California, and the classic family road trip was born. These were the boom years of Route 66, where driving became an adventure. These were the days of motor courts, neon signs and roadside attractions that delivered the lure of the odd, fun, unexpected and exotic.

Then in 1956, inspired by Germany's Reichsautobahn network of superhighways during World War II, President Dwight Eisenhower enacted the Federal-Aid Highway Act, which set in motion the construction of five major highways that were expected to accommodate traffic demand and make travel more efficient. Unfortunately, these modern four lane interstates would also spell the decline

Today, more than 85% of the old road is still accessible to vehicles with more than 400 miles of drivable Route 66 in Illinois.

of Route 66 and other small highways as travelers opted for speed rather than meandering along. The small roadside tourist attractions that characterized Route 66 began to be overshadowed by the larger commercial strips that sprung up at every exit and interchange, sealing the fate of businesses and communities on the Mother Road.

In Illinois, Route 66 was replaced by the adjacent Interstate I-55, leading to the decommissioning of Illinois' stretch of the Mother Road altogether in 1977. On June 27, 1985, the entire stretch of Route 66, from Chicago to Los Angeles was officially decertified. Road signs were removed, along with its presence on maps.

While much of the original Route 66 has changed over time, with some sections having been usurped by the interstate system, nearly all of Illinois Route 66 is still traversable today. Illinois Route 66 was designated as a scenic byway by the United States Department of Transportation in 2005. The Byway is over 400 miles long and passes through 90 communities along the three alignments.

Communities along Illinois Route 66 have embraced the famous road and have worked to preserve their unique attractions. These cities and towns provide shopping, dining, lodging, amenities and other services

that make the trip a convenient one for the traveler. Though some iconic sites and personalities are no longer with us, the vibrancy of Route 66 continues to spawn new attractions, businesses, and entrepreneurs along the road.

Route 66 will turn 100 years old in 2026. That significant anniversary led Illinois to be the first state to introduce legislation to establish a State Route 66 Centennial Commission. This legislation was passed unanimously by the Illinois House and Senate and has been signed into law by the state Governor. In Congress, the Bill to establish the Federal Route 66 Centennial Commission was passed unanimously by the House of Representatives and Senate and signed into law by the President in December 2020.

Today, nostalgia for Route 66 is alive and well. In the following pages you will have the opportunity to retrace the steps of the Main Street of America in Illinois and prepare to discover America's Main Street for yourselves. Remember, the less rushed you are, the richer your experience will be. Illinois 66 has so much to offer.

Land of Giants

The idea that bigger is better is alive and well in Illinois Route 66. With each twist and turn, uncover roadside attractions that pack a big punch. From enormous 18-foot muffler men, to gigantic bottles, to gargantuan tricycles, you're sure to find something spectacularly big, culturally significant or downright oddball. So be ready for some pretty nifty Kodak moments and enjoy the ride!

Begin your giant adventure in **Wilmington** with the **Gemini Giant**, a 30-foot spaceman donning a green suit, silver helmet and holding a rocket with the words "Launching Pad" on it, an ode to the country's 1961 Gemini spaceflight program. Paying homage to this imposing titan, holding down the fort outside of the Launching Pad Drive In, has become a Route 66 road trip ritual. He is the most photographed of the muffler men, and the only surviving space version left. Over in the town of **Normal**, you'll find a 15-foot-tall "soda jerk" style muffler man named **Carl**. The smiling giant at Carl's Ice Cream Factory, the only ice cream store in Bloomington/Normal that makes its own premium hard ice cream, stands

proudly holding an ice cream cone in one hand and a hamburger in the other, clearly enticing travelers to give in to their hunger cravings.

Further south, the Mother Road takes you to another of these famous goliaths, the 19-foot **The Bunyon Giant** in super quaint **Atlanta**. This hotdog holding muffler man once peddled wares at Bunyon's Hot Dog Stand in Cicero (southwest of Chicago) before being relocated to Atlanta in 2003. Big Paul is on the ready to help nail that perfect photo op.

Give the kids a presidential history lesson at the **World's Largest Covered Wagon** in **Lincoln**. This 25-foot-tall and 40-foot-long Guinness Book of World Records qualifier, comes complete with a large statue of

Enjoy Illinois

Abraham Lincoln sitting on the front end, a law book in hand. Known as the Lincoln Railsplitter, the attraction was hand-built in 2001 and was moved from the town of Divernon to Lincoln in 2007. In **Springfield**, you'll want to track down the **Lauterbach Giant**, a 1962 muffler man who has advertised a variety of businesses in town, including a tire shop, a café and motel. Proudly holding an American flag (rather than the original tire), this bearded gent, who sits in front of Lauterbach Tire & Auto Service, has quite the storied past that includes surviving decapitation after a tornado blew through town in 2006.

Luckily, he was quickly restored to all his patriotic glory.

As you come to the end of Illinois Route 66, a stop at the whimsical **Pink Elephant Antique Mall** in Livingston is an absolute must. Get a 5-for-1 deal with the variety of huge statues all in one stop! Hang ten with the Giant Surfer, a Giant Tricycle, a **Giant Pink Elephant**, among others. You will also encounter a more recent addition: a massive former President Donald J. Trump statue realistically wearing a large red MAGA hat. And just because you are in the Land of Giants, you get the special treat of seeing one of the rare and unique **Uniroyal Girls**. With only a dozen or so left in the country, these first ladies of roadside attractions were allegedly modeled after Jackie Kennedy, and depending on the season, can be seen sporting a dress, bikini or in this case a waitress uniform. The last Illinois giant treasure stands tall in **Collinsville**, the **Giant Catsup Bottle** doubles as a 170-foot-tall water tower and is undeniably impressive. No matter which giant you spot, you're promised pure, nostalgic entertainment and rare photo opportunities for the whole family.

Rivers and Routes

Land of Classic Dining

Take your taste buds for a ride as you explore the Land of Classic Dining. From traditional diners and quirky cafes to amazing fine dining, Illinois' stretch of the Mother Road hosts some of the most treasured eateries on the highway.

Breakfast at **Lou Mitchell's** in **Chicago** has become a rite of passage before heading out west. The eatery's 1950's decor, zigzag shaped counter, and retro booths will time warp you back to a bygone era. For 98 years, Lou's has served up hearty meals, with a side of quirky tradition — milk duds for the ladies and donut holes for the gents.

Stop in at the **Berghoff Restaurant** for a look at the first ever Chicago Liquor License No. 1 which hangs proudly on one of the walls. With a legacy that goes back to the 1800s, this restaurant's historic ambiance with oak wood paneling, old fashioned light fixtures and indoor murals, reeks of old-world charm.

If you are looking for a taste of the "original Chicago hot dog," otherwise known as the "depression dog" then step into **Henry's Drive-In** in **Cicero**. A former drive-through diner famous for its delicious french-fry topped

hotdog. However, if chicken is on your mind, then head over to **Dell Rhea's Chicken Basket** in **Willowbrook** for some of their world-famous slow-cooked chicken. Tracing its roots to a 1930s lunch counter, this current 1946 roadhouse offers sit down dining and a cocktail lounge.

The **Polk-A-Dot Drive** in **Braidwood** is a '50s-style diner right out of *American Graffiti*. Starting out as a food bus with polka dots in 1956, it has become a popular gem on Route 66 for its checkered floors and tabletop jukebox, root beer floats and chili cheese fries. For delicious country cooking in a family-oriented atmosphere and Route 66 flare, then the newly renovated **Old 66 Family Restaurant** in **Dwight** is the place to be. The front of a car is used as a hostess stand, supporting the road travel theme, while Mother Road memorabilia adorns their historic walls. You'll find an abundance of Route 66 history at the

Heritage Corridor

Old Log Cabin in **Pontiac**, from the almost 100-year-old building itself, to the regulars who frequent the cabin.

Slide yourself into one of the booths at the **Dixie Travel Plaza** in **McLean** and transport back to 1928. Originally called Dixie Truckers Home, the restaurant offers a long history of those who know the road and good food better than perhaps anyone: truckers.

The painted murals, low lighting, mismatched tables and chairs, and the exposed brick walls of the **Wild Hare Cafe**, in **Elkhart**, give

the perfect ambiance to enjoy the made from scratch, internationally inspired menu.

Experience an American fast-food treasure at the **Cozy Dog Drive-In** in **Springfield**, home of the “original” hot dog on a stick. The third generation Waldmire family-owned diner has been feeding hungry travelers since the 1940s. What began as a ‘crusty cur’ at 15 cents, has become a true Mother Road royalty. If you’re in the mood for a finer dining establishment in the state capital, check out **Maldaner’s**, opened over a hundred years ago in 1884. Here you can enjoy chef-prepared meals inspired by Mediterranean influences, in a historical setting.

The bright neon **Ariston Cafe** sign in **Litchfield** will beckon you to stop at this eatery that is considered one of the oldest restaurants in operation along the Mother Road. Land of Vintage Gas Stations

At a point in time, family-owned filling stations dotted the American landscape, and they weren't just for fuel. These drive-in gas stations helped usher in the golden age of American automobiles. Although generally not in service anymore, these historic roadside staples that dot Illinois Route 66 are a reflection of America's transportation revolution and offer an opportunity to soak in the allure of a bygone era.

Kevin Edinger

Start your exploration at the **Ambler's Texaco Station in Dwight**, a spot that serves as both the literal and metaphorical welcome center to the nostalgia that you are looking for. Built in 1933 and consisting of an office with an arched roof and a sheltering canopy extending over three gas pumps, the restored gas station stands as one of the oldest continually operated service stations along Route 66. Browse through the displays of old cash registers, historic automotive memorabilia, and tools from the 66 years that it serviced motorists, including a fully restored Model-T, Dwight's first fire truck.

Just down the road in **Odell**, relish in the history and authenticity of the **Odell Standard Oil Station**. Built in 1932 and based on the 1916 Standard Oil of Ohio design, with a garage and service bay added in the late 1940s, the station sold gas until the 1960s, but ended up closing for good in the

1970s, eventually falling into disrepair. But the station was so beloved by the local community that the town (along with the help of several committees and associations), decided to restore it to its

Kevin Edinger

original grandeur, allowing for the icon to remain today.

The cottage-like facade and bright yellow Shell pumps of the **Soulsby Service Station** in **Mount Olive** are a time capsule of an era of customer service that today seems quaint. Built in 1926 by Henry and Russell Soulsby, the Shell station stopped serving gas in 1991 and closed its doors for good in 1993. However, under new ownership, the station has been impeccably restored to look essentially the same as it did during its prime in post-World War II. It remains one of the most photographed stations on the entire highway.

At the 1931 **Sprague's Super Service Station** in **Normal**, you'll find an architectural rarity in the distinctive brick Tudor Revival structure that is now the area's visitor's center. Constructed by William W. Sprague, the beautiful manor-style building with its red-gabled roofline, once housed a cafe, garage and gas station selling Cities Service gas, while the upstairs served as living quarters for the owner and gas attendant. During the 1940s, the building and plot changed hands a couple of times and the gas pumps were eventually removed in 1979. The building was purchased in 2006 and painstakingly restored to its original

glory and stands as the only Tudor Revival canopy gas station in the State of Illinois.

In bustling **Springfield**, you will find the historic 14x14 foot **Mahan's Phillips 66 Filling Station** on display at Fulgenzi's Pizza & Pasta. Believed to date back to the 1920s, it was bought by Henry Mahan who moved it to Middletown before

World War II, where for six decades, he ran it as a Phillips 66 Station. Back then it was white in color, with a big canopy, and a pre-electric gas pump with a big glass globe at the top. Mahan eventually closed the station in the mid-1950s, and there it stayed as storage space until it was purchased by Bill Shea Sr. who brought it back to Springfield as the main attraction at his **Shea's Gas Station Museum** and restored it to its faded splendor, complete with original colors and artifacts from the days when it was operating. When Shea passed in 2013, his collection was auctioned off, including the station which was bought by local entrepreneur Jeff Fulgenzi. Today, this preserved handsome structure, rumored to be one of the earliest gas stations in Illinois, serves as a roadside novelty and a great photo opportunity or souvenir spot for any traveler.

Another destination-worthy museum is the **Illinois State Museum** which tells the story of the land, life, people, and art of Illinois through extensive permanent and temporary exhibits. If architectural history is of interest to you then check out the **Elijah Iles House**. Built in 1837, by one of the founders of the city, it houses the **Museum of Springfield History** on the lower level. **Edwards Place**, the oldest house in Springfield on its original foundation and the **Dana-Thomas House**, designed by Frank Lloyd Wright in 1902 for Susan Lawrence Dana, a Springfield socialite are sure to also delight. Uncover the stories about African-American life in Central Illinois, at the **Springfield and Central Illinois African American Museum**, another intriguing stop.

Did You Know? Located in the old town square, the historic **Greek Revival Old State Capitol** building served as the seat of state government from 1839-1876. It was here that Lincoln delivered his famous "House Divided" speech in 1858.

Illinois Route 66 Scenic Byway

The Route 66 Monarch Flyway

The Route 66 Monarch Flyway, which the Illinois Monarch Project debuted on November 18th, 2020, is a 66-mile-wide corridor that stretches from Chicago to St. Louis across the state of Illinois. The project is seeking to bring the unique aspect of Route 66 to Illinois' efforts to help the monarch butterfly by planting native wildflowers and restoring habitat projects within the corridor. One of the goals of this effort is to bring together all aspects of life in Illinois, which are represented in the four sectors of the Illinois Monarch Project (IMP) – Urban, Agriculture, Rights-of-Ways and Natural Lands. The IMP collaborates with public and private partners, in addition to individuals across the state, to protect and enhance existing habitat and establish new habitat that supports monarch butterflies and other pollinators.

SOUTHERN SECTION

Welcome to the southern and final section of Illinois Route 66. Due to population growth and road development, sections of Route 66 underwent constant changes over the years, ranging from widening to rerouting, including in this stretch. From **Springfield**, the Mother Road traversed along Illinois Route 4 to **Stanton** from 1926-1930 while the official Route 66 was being built to the west. This alignment snakes through the hearts of **Chatham, Auburn, Thayer, Virden, Girard, Nilwood, Carlinville, Gillespie, Benld** and onto **Stanton**. These towns endure as cherished gems that evoke a sense of genuine small-town America and are more than worth a visit. The western alignment was in service from 1930-1940. The final alignment was built in 1940 as a four lane highway that morphed into Interstate 55 after Route 66 was decommissioned. Towns included along the later alignments and in the Metro East area include **Glenarm, Divernon, Farmersville, Litchfield, Mt. Olive, Livingston, Hamel, Edwardsville, Troy, Glenarm, Collinsville, Fairmount City, Mitchell, Granite City** and the original Mississippi River crossing at **Chain of Rocks Bridge** in **Madison**.

CHATHAM AND AUBURN

Take a glimpse into the golden age of train travel at the **Chatham Depot & Railroad Museum**. Built in 1902, this restored station preserves the area's railroad history. While here, stop in at the **Sangamo Brewing and Breweriana Museum**, a full bar and craft brewery that nods to the history of vintage breweriana from downstate Illinois. Hopheads will appreciate the extensive collection of vintage beer advertisements and paraphernalia on

Sangamo Brewing

display. Then, follow one of Illinois 66's most popular detours, the **Historic Brick Road** at Snell and Curran Roads in **Auburn**. Dating back to 1931, this original, hand-laid stretch (close to

a mile long), with gentle curves and surrounded by corn fields, is testimony that it's not just what's along the Mother Road that creates memories, but the road itself.

SOUTHERN SECTION

GLENARM

This tiny village is home to the 60-foot **Sugar Creek Covered Bridge**. Not only picturesque, this 1880 Burr truss bridge is the only one of its kind remaining in Sangamon County and is open to foot traffic. If you are craving some outdoor time, then you are in the perfect spot. Grab a blanket and enjoy a picnic respite in the serene park adjacent to the bridge. While in town, why not check out the **Corvair Museum**? It pays tribute to the varieties of Chevrolet Corvair and has rotating exhibits that are sure to thrill motor enthusiasts and novices alike.

John Smith

DIVERNON

For a feel of this quiet community — a once roaring mining town that was the second largest town in Sangamon County, thanks to a thriving coal production (the Madison Coal Mine Number 6) — check out the **Rusty Star Marketplace & Route 66 Welcome Center**. It is home to 80 small business shops under one roof. The restored **Historic Divernon Train Depot & Museum** preserves the town's past as one of four depots on the Springfield to Litchfield line. Stop in at **Tammi's Treasures Antiques & More** which, with over 75 booths, offers a varied inventory of merchandise, all under one roof. From antiques to furniture and everything else in between, there is something for everyone.

illinoisroute66.org

! **Don't Miss The Shrine of Our Lady of the Highways** in **Waggoner/Raymond**. The statue of Mother Mary, imported from Italy and installed in 1959 "to honor (the Virgin) Mary and ask her assistance guiding travelers on their way."

illinoisroute66.org

THAYER AND VIRDEN

It doesn't get any smaller town than **Thayer**, which elicits a 'middle of nowhere' aura. Get a taste of 'real' America at **Mick's & Mary's**, known to serve some of the best home cooking around. Another happening place in town is the **Pudock's Hideout - Bar & Grill**, whose period themed menu items such as 'Gangster Wings', 'Capone Burger' or 'Route 66 Shoes' are enough to pull you in.

A visit to **Virden** starts at the **Town Square and Central Park** where you will find the **1898 Battle of Virden Monument**, a detailed bronze mural that immortalizes brave coal miners who died fighting for workers' rights. **Sly Fox Bookstore**, which specializes in children's books, and **Showtime Lane Family Fun Center** guarantee hours of enjoyment for the whole family. The 19x50-foot **History of Virden Mural**, one of three very cool murals in town, highlights Virden's origins as a stagecoach stop, then a coal mine town, and its deep Route 66 roots.

 **Did You Know?** Portions of the Mother Road through this area travel on what was once the old Pontiac Trail, named after the Ottawa Chief

Pontiac, and was the main pathway between Chicago and St. Louis in the early 1900s. Today, Route 66 follows State Road 4, the first fully paved highway in Illinois.

THE LORE OF THE NILWOOD TURKEY TRACKS

Nilwood is home to less than 250 people. The only indication that the main drag that runs through town was once Historic 66 are a couple of roadside markers on IL-4, a peeling mural on the side of a red brick biker club called the Iron Sled, and, wait for it... a hand-painted wooden turkey! The story goes that before IL-4 was designated a part of Route 66 in 1926, an unknown number of birds ran across the wet pavement, leaving 34 turkey tracks to permanently cement themselves in the road. Today, those tracks, imprinted on the narrow street of Donaldson Road, are contained by a thick white border that is painted on the original 1926 pavement and sandwiched between two Route 66 highway markers. This more than 100-year-old road trip relic is marked by a hand-painted sign that reads “Turkey Tracks” in elegant script and a smiling wooden turkey on the side of the road. The peculiar attraction may be a roadside oddity for the occasional traveler, but for residents of small towns that boast similar minor attractions, the narrative of the place they call home is shaped by the story of Route 66.

John Smith

Route 66 from Girard to Nilwood is listed on the National Register of Historic Places and is a short lived section of the original 1926 pavement that was replaced in 1930 with a major realignment to the east.

GIRARD AND NILWOOD

Step into the 1920's themed **Docs Just Off 66**, (formerly Docs Soda Fountain & Pharmacy Museum and before that, Deck's Drug Store) one of Girard's oldest businesses dating back to 1884. Wet your whistle with a cherry or vanilla Coke, banana split, Route 66 beer float or enjoy breakfast, lunch or dinner in the Pharmacy-themed restaurant and bar. Or, have your pick from over 50 flavors of ice-cream at another local landmark, the **Whirl-a-Whip**. **Nilwood** is not only home to the famous imprints of Turkey Tracks, it is also home to the **13-Star Flag Barn**, a popular photo op of a rustic picturesque barn that has the Betsy Ross flag painted on its wall. The specific flag is unique as it has 13 stars in a circle representing the original 13 colonies.

illinoisroute66.org

✓ **Travel Tip:** To get the full 'life at a slower pace' experience, check out **Hidden Ridge at Otter Lake**, a private wooded hideaway just steps from Girard that offers authentic camping in canvas tents amidst a serene and beautiful setting.

BD Images

 **Did You Know?** Some of the road segments in this stretch consist of the original Route 66 concrete box culverts which although cracked in some places, have withstood the test of time.

CARLINVILLE

The impressive brick-paved **Historic Square** is the center of community life in Carllinville, the biggest town along this stretch of Route 66. Surrounded by colorful shops and cafes, like the **Historic Treasures** and the **Mother Road Antique Mall**, all housed in century old buildings, the square is a scene of summer picnics and market days. An appealing **Cedar Gazebo** adds to its charm. It's a short walk from here to the crown jewel of the town: the **Macoupin County "Million Dollar" Courthouse**. Completed in 1870 at a price tag that took 40 years to pay off, it is considered the most magnificent courthouse in Illinois. Peek into the town's past at the **Historical Society & Museum**, and the onsite authentic schoolhouse, blacksmith, and a print shop that tell of the area's fascinating history. Envision life behind bars at the 1869 medieval-inspired **Historic County Jail**, built in the 'cannon ball' method to impede jailbreaks. For some extra spooky fun, check out the **Loomis House** on the Square. The once grand hotel built in 1869 is rumored to be haunted. You tell us what you think!

 **Did You Know?** Carllinville has the largest community of **Sears & Roebuck Mail Order Homes** in the country (150 homes), all within a 9-block radius on the north end of town. These were purchased in 1917 by the Standard Oil Company for their mine workers.

 **Travel Tip:** The Carllinville Historic Square is the only town square in Illinois that Route 66 went completely around.

GILLESPIE

Right in the heart of coal mining country, **Gillespie** honors its impressive black diamond history at the **Illinois Coal Museum**. The town's main street hints at a past with eclectic stops like **Miner's Restaurant**, the **Village Toy Chest**, and **Michelle's Pharmacy**. Other sites to see are the **Miner Silhouette Statue**, the **Interpretive Coal Mining Exhibit**, the **Downtown Mural**, and the **Historic Canna Theatre**, which opened in 1921 as the Pert Theatre. Its ancient marquee and entrance are glimpses into its glory days.

illinoisroute66.org

BENLD

Bootlegging, gambling halls, and gangster hideaways are all said to be part of **Benld's** storied past. The unassuming town, whose name is a combination of its founder, Benjamin L. Dorsey's name, thrived as a mining town with a high immigrant population. Revel in the town's gangster past at **Capone's Saloon**, a tribute to the mobster rumored to have spent time here. And want a great pic opportunity? Check out the **Holy Dormition Orthodox Parish**, noted for its Italian and Russian roots. The current onion-domed church was built in 1915 to replace the original 1907 building. It is the only Russian Orthodox Parish under the Moscow Patriarchate in the state of Illinois.

illinoisroute66.org

Did You Know? The **Coliseum Ballroom**,

the town's main attraction that hosted the Who's Who in the Rock 'n Roll Hall of Fame, burned down in 2011. Built in 1924, it was considered the largest dance floor between Chicago and St. Louis.

STAUNTON

Enjoy Illinois

Travel back to the days of yore in downtown Staunton where a new **Route 66 Mural** titled, “Where the Three Roads Come Together,” showcases all three alignments of Route 66: 1926-1930, 1930-1940 and 1940-1977, that went through town. A drive through the **Historic Downtown** is like stepping back to what small towns used to be. On the old alignment of Route 66, look out for the ‘Hare it Is’ sign which welcomes you to **Henry’s Ra66it Ranch**, a quirky roadside attraction and home to rabbits of the Volkswagen and furry kind. This spot is a Route 66 favorite and considered a must-visit for any Mother Road enthusiast. If the words Cabriolet, Dagmar and Fade-aways are in your vocabulary you must check out **Country Classic Cars** and enjoy the 600 antique cars exhibited all under one roof! The family owned and

run business also has a gift shop with collectables and Route 66 memorabilia. Then tank up at 1930s **DeCamp Station**, a historic roadhouse with a fascinating and somewhat colorful history that included a gambling and brothel past and a stick up by gangsters in a large black sedan. The former dance hall has been revived into a classic bar offering a unique dining experience.

 **Did You Know?** The town was named after a Mr. Stanton as a thank you to his donation of land for the village square. An error by the clerk processing the name application gave the town its Staunton spelling.

 **Travel Tip:** Staunton is located on the ITS-Route 66 Bike Trail with the Trailhead located at Duda Park.

illinoisroute66.org

Embrace the Mother Road at the **Litchfield Museum & Route 66 Welcome Center**. Located near the site of the 1957 Vic Suhling gas station, the museum's exhibits and displays include a must-see original Route 66 road-sign. The restored **Vic Suhling - Gas For Less Neon Sign** testifies to the former station's place in history. Soak in sentimental remembrances of days gone by at the **Ariston Cafe**, rumored to be the oldest continuously operated restaurant along all of Route 66. This Route 66 landmark, with origins going back to 1924, has been a Litchfield staple since 1935, offering friendly service, fabulous soul food, and standouts desserts. Another eatery that has stood the test of time is the three generational **Jubelt's Restaurant & Bakery**. Tracing its story back to 1922, the bakery has been serving the Litchfield community since 1952 and from its current location since 1982. History buffs will want to admire the **Historic Carnegie Library Building**, the centerpiece of the town that was originally funded by philanthropist Andrew Carnegie in 1904. Make it a

retro night at the **Sky View Drive-In**. First opened in 1950, it is the only original operating drive-in movie theater on the Illinois stretch of Route 66. It also happens to be the oldest continuously operated drive-in from Chicago to California!

✓ **Travel Tip:** Explore Litchfield's outdoors culture at **Lake Lou Yaeger**, a 1,357- acre, 5.5-mile-long lake that offers boating, fishing, hiking and biking trails, campgrounds, a public swim beach, and a conservation area.

💡 **Did You Know?** Litchfield is host to two separate alignments of Route 66: the 1930-1940 and 1940-1977 routes.

The **1930-1977** ‘newer’ alignment of the Mother Road, started off as a two-lane road and later became a four-lane highway with some sections swallowed up by I-55. It runs east of Springfield with much fewer turns but winds its way through the quaint towns of **Farmersville**, and **Litchfield**, before joining Old Route 66 through **Mt. Olive**, **Livingston**, **Hamel**, **Edwardsville**, and **Mitchell**.

MT. OLIVE

This small community is home to the oldest gas station still standing on Illinois’ stretch of Route 66, the **1926 Soulsby Service Station** which had been impeccably restored, maintaining its original house and canopy design. Just north of Route 66, paying homage to the town’s coal mining roots, is the **Union Miners Cemetery**, and **Mother Jones Monument** dedicated to the memory of Mary Harris Jones, a labor organizer and formidable voice in the fight for miners’ rights. Visit the **Mother Jones Museum** website for a virtual tour on her life and legacy.

LIVINGSTON

What this small town lacks in size, it makes up for in giants. Make your way to the **Pink Elephant Antique Mall**, home to an array of giant attractions: the Giant Surfer, a Harley-Davidson Muffler Man, a Giant Tricycle, a Giant flying Saucer House, a Giant Pink Elephant, and a rare Giant Uniroyal Girl believed to be crafted after Jacqueline Kennedy. Inside the former high school turned mall, you will find floor to ceiling shelves displaying wares of more than 50 antique dealers. Onsite is also a retro ice-cream shop, and the **Mother Road Fudge-n-Candy Shop**.

HAMEL

At the intersection of Route 66 and IL Route 140 is the sleepy town of Hamel, a place that proudly proclaims its Mother Road heritage. Step into the former 1938 Tourist Haven Restaurant — now **Weezy’s Route 66 Bar and Grill** — a local hotspot that keeps the old road’s spirit alive with themed decor, vintage signs, and hearty meals.

St. Paul Lutheran Church, established by German settlers in the mid-1800s is famously known as the “**Church of the Neon Cross**” and has a large blue neon cross donated during WWII by the Brunnworth family in memory of their son. Its soft glow is now a symbol of safety for Route 66 travelers. Head over to the Hamel Train Depot afterwards and get your ice-cream fix at the **Route 66 Creamery**.

SOUTHERN SECTION

EDWARDSVILLE

Prepare to be charmed by the storybook-like streets of the third oldest city in the State of Illinois. A walk through **Downtown Edwardsville's Historic District** will make you want to stay until the cows come home. The **St. Louis Street Historic District**, one of the most prestigious sections of Edwardsville in the late 1800s, features a collection of extravagant homes in various architectural designs. South of town is the **Leclaire Village Historic District**, a 23-block neighborhood with modest, but attractive homes displaying 19th Century architecture. Soak in nature's natural beauty at the **Leclaire Lake Park**, which features a picturesque two-acre fishing lake, picnic pavilion, and playground area. Enjoy hours of educational enjoyment at the **Edwardsville Children's Museum** which hosts exhibits and programs geared to inspire wonder. Peek into Illinois' cultural, political, social, and architectural past with a tour by costumed docents at the **1820 Colonel Benjamin Stephenson House**, a two-story Federal Style house considered the oldest brick building in Madison County, and an important landmark in the establishment of Edwardsville. Then, catch a classic movie or live performance at the former opera house now renovated historic **1909 Wildey Theatre**.

! Don't Miss The Watershed

● **Nature Center**, a protected forest, prairie, and wetland habitat, featuring paved hiking trails, a raised marsh walk, and a welcome center. It's a true gem for outdoor recreation.

As you prepare to leave the Land of Lincoln, Route 66 once again splits into two alignments. The 1926-30 route, also known as City 66, travels through **Mitchell, Granite City, Madison**, and finally **Venice**, before crossing into East St. Louis. The second alignment, the 1940-1977 or by-pass route, maneuvers through **Troy, Collinsville**, and **Fairmont City** and into St. Louis.

MITCHELL

The first hint of urbanization hits you as you approach this old Route 66 town that still harbors relics of the past, such as the infamous **Luna Cafe**. Built in 1924, the cafe has quite the storied history that includes gambling in the basement, a 'ladies of the night' upstairs, and even Al Capone is rumored to have frequented here. The elaborate and colorful vintage **Neon Sign** has been fully restored, including a ruby colored glass for the cherry to magnify the red glow. The story goes that back in the day, if the cherry was lit, the working girls were in.
